Junior Software Developer | Software Engineering Intern

Profile Summary

Driven junior software developer with 3 years of hands-on experience building full-stack web applications. Skilled in React.js, Node.js, Spring Boot, Flask, and PostgreSQL, with a strong focus on user-friendly interfaces and clean code. Seeking an entry-level or internship role to deliver valuable software solutions and grow within a collaborative engineering team.

Technical Skills

- Languages: Python, JavaScript, Java, SQL
- Frameworks: React.js, Spring Boot, Node.js, Express.js, Flask
- Web: HTML, CSS, JSON, REST APIs
- Databases: MySQL, PostgreSQL
- Tools: Git, GitHub, VS Code, Vercel, Figma

Project Experience

Personal Portfolio Website

- Created a responsive React.js portfolio application to showcase projects, skills, and contact details.
- Implemented reusable UI components, responsive layouts, and JSON-driven content management.
- Built accessible navigation, sections for experience and education, and a modern mobile-friendly interface.
- Managed version control with Git and GitHub, then deployed the final app to Vercel.
- Live site: <https://matsepe-kgodiso-software-dev.vercel.app/>

Education

Tech Performance Center — Software Engineering Certification (February 2026 – Expected July 2027)

Relevant Coursework: Data Structures and Algorithms, Operating Systems, Database Systems, Software Architecture, Web Technologies, Computer Networks, UI/UX Design.

Core Strengths

- Strong foundation in software development principles and modern web technologies.
- Excellent problem-solving and analytical skills.
- Fast learner with adaptability across new tools and frameworks.
- Team-oriented communicator focused on collaboration and delivery.
