PROFESSIONAL SUMMARY

Junior software developer and founder of FindRooms, an accommodation platform. Experienced in building full-stack applications with Python, JavaScript, React, Node.js, and Express, with a strong focus on creating practical digital solutions and improving user experience. Seeking a junior developer opportunity to contribute technical skills, product thinking, and problem-solving in a collaborative software team.

TECHNICAL SKILLS

Programming: Python, JavaScript, Java, C#
Frontend: React, HTML5, CSS3, TypeScript
Backend: Node.js, Express.js, Flask API, Spring Boot
Databases: MySQL, PostgreSQL, SQL, JSON
Cloud and Tools: AWS, Git, GitHub, VS Code

PROJECT EXPERIENCE

FindRooms | Portmat - Accommodation Marketplace

Founder and Developer | findrooms.co.za

- Founded, developed, and deployed a live full-stack accommodation platform.
- Built dynamic accommodation listings, search, and filtering with React, Node.js, Express, and MySQL.
- Integrated RESTful APIs and used React lazy loading and Suspense to improve the user experience.
- Managed the product from concept and development through deployment and production hosting.
